

## **PROFESSIONAL SUMMARY:**

Highly motivated SDET with excellent communication skills, adept at effectively collaborating with cross-functional teams. Skilled in software testing, test automation, and quality assurance. Disciplined and capable of managing heavy workloads while maintaining attention to detail. Self-driven learners consistently seek growth opportunities. Ready to contribute to the success of software projects with a strong focus on communication and teamwork.

## **TECHNICAL SKILLS:**

- Java, Maven, JavaScript, Node.js
- Selenium, Cypress
- JUnit, TestNG, Appium
- Cucumber, Gherkin
- MySQL, SQL Server, MongoDB
- REST API, GraphQL, Postman
- Git, GitHub, Jenkins
- Agile/Scrum, Jira
- Behavioral Driven Development
- Data Driven Testing
- SDLC, STLC
- Research oriented, self-motivated
- Test Planning, Test Design
- Smoke, Regression Testing

## **PROFESSIONAL EXPERIENCE:**

### **Software Development Engineer in Test Corentrols**

**September 2022 – Present**

- Developed and maintained end-to-end automated test framework using BDD and DDT, provided actionable and reliable test reports and implemented automated regression, smoke, and functional test suites, reducing the time spent on manual testing and enabling faster identification of defects.
- Conducted comprehensive API testing for 50+ endpoints, ensuring data integrity, response codes, and database adherence.
- Conducted comprehensive database testing across 100+ tables, performed CRUD operations on various data entities to validate the system's data manipulation capabilities and ensure proper functioning.
- Worked in an agile environment with daily stand-ups, kept track of user stories, test plans, bugs in JIRA and conducted agile ceremony meetings.
- Implemented automated testing within the CI/CD pipelines using Jenkins and collaborated with teams to analyze daily reports.

**Skills:** Java, Maven, Selenium, JUnit, Cucumber, JDBC, REST Assured, MySQL, Jenkins, Jira, Git, GitHub

### **Data Analyst Kraft Heinz**

**July 2021 – Present**

- Develop, design, and maintain more than 15 reports on a recurring basis, providing insightful analysis and actionable recommendations to support various departments, with a particular focus on the retail sales team.
- Collaborate with stakeholders to understand their specific reporting requirements and create ad-hoc reports as needed, ensuring the timely delivery of accurate and relevant information to facilitate critical decision-making processes.
- Connect Excel reports with SQL Server using OLAP and ODBC connections to extract, transform, and load data for analysis, applying SQL queries and advanced Excel functions to manipulate and analyze large datasets efficiently.
- Utilize Excel Macros and Power Query to automate repetitive tasks and streamline report generation processes, resulting in significant time savings and improved efficiency.
- Leverage expertise in React and other web technologies to create interactive and visually appealing web pages for additional functionality and enhanced visualization of reports.

**Skills:** Excel, Excel VBA, Power Query, React, OLAP, ODBC, SQL Server, Power BI, Microsoft Office Apps

**Key Account Executive  
FrachtBox**

**September 2020 – February 2021**

- Developed and managed key accounts by establishing and nurturing relationships with exporters and importers.
- Conducted market research to identify potential clients and expand the company's client base.
- Negotiated and closed business contracts, resulting in a significant increase in revenue.
- Collaborated with internal teams to ensure seamless execution of trade operations and delivery of services.
- Coordinated logistics and transportation services for clients' shipments, including shipping, customs clearance, and delivery.

**EDUCATION:**

- **International Trade and Logistics (Full Scholarship)** **2016 - 2020**
  - Kadir Has University
- **CYDEO** **(2022)**
  - Manual and Automation Testing / SDET / Test Automation coding school focused on Test Automation, Full Stack Development, DevOps, and RPA in the USA. Completed over 1000+ hours of full-time course instruction, project, and work experience in the industry.
